Passion, Elegance, Brilliance

For centuries, the crystal chandelier has been a symbol of beauty, elegance and status, which has been appreciated for its decorative, ethereal beauty and brilliance.

As obsessed manufacturers of custom made and unique crystal chandeliers, we believe that following historical traditions, but spicing up with some Avant-Guard creativity, inspired by Art Deco style and natural forms, crystal chandeliers can bring a spectacular, glamorous addition to any space. Their possibilities for interiors are limitless so we cooperate with architects and interior designers around the world, developing special light installations for their projects.

Each of these sparkling lighting fixtures comes with a mirror polished Italian stainless steel base and high quality crystal elements. We design and create our chandeliers with various styles, shapes and sizes but they all can be tailored to your conception and possibilities. There are many different crystal drops and pendants to choose from, each one in a variety of sizes and every type has a different light reflection.

A piece of handmade crystal chandelier is like a jewel which can be the crown of the interior. It radiates not only light but sparkle, prestige and beauty that you can enjoy every time you look at it. That's why we created Luchiante crystal chandelier brand which represents a symbiosis of historic truthfulness and contemporary craftsmanship. The interaction of tradition and modernity gives our products a timeless elegance. Just like the light reflects on the surface of a crystal, our passion is reflected in the quality of our creations, and radiates out from our chandeliers wherever they are hung.
